

# BACKDRAFT

## ADVANCED TECHNOLOGY FOR FIRE FIGHTING

BACKDRAFT is the new high technology wildland fire fighting goggle that is compact, high performance and comfortable. Fully sealed and able to withstand the most extreme conditions (heat and abrasion), BACKDRAFT provides safety and protection. With its double, high strength, fog resistant PLATINUM® coating and its optional optical insert, BACKDRAFT is focused innovation.

**CERTIFIED**  
NFPA 1977  
WILDLAND FIRE RESCUE  
ANSI Z87.1 - 2010

### TECHNOLOGY

This innovative coating is an effective solution for all activities that alternate exposure to bright light and low light, while also being suitable for extreme hot and cold temperature environments. CSP is also combined with the exclusive PLATINUM coating that sustainably combats fogging.

The new exclusive scratch and fog resistant PLATINUM® coating guarantees even more safety, reliability and comfort. Washable (water and soap), this permanent coating applied on both sides of the lens makes it highly scratch resistant and durably delays the appearance of fogging.

### PROP 65

**WARNING:** Reproductive Harm – [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

### CLEANING AND STORAGE

**CLEANING:** The lenses should be cleaned regularly. Bollé Safety recommends only using the B-clean lens cleaning system.

**MAINTENANCE:** Pitted, scratched or damaged lenses must be replaced by replacing the complete product. If the frame is damaged also replace the complete product. After each use it is recommended to keep the spectacles or goggles in a microfiber pouch or rigid case.

**STORAGE:** All products must be stored in a dry and clean environment.

### CHARACTERISTICS

LENSES	PC - inside: 1,4 mm PC - outside: 2.2 mm curve 7C
FRAME	TPU
TEMPLES	NA
STRAP	Nylon // non-flammable
FOAM	SBR
